KEY STRENGTHS

LEADERSHIP & OPS	FINANCE	PERFORMANCE & GREEN	SCOPE & IMPACT
17 FTE *(Direct & cross-functional)*	**12 M€ CAPEX** *(Managed project budget)*	**99.9% Uptime** *(Sustained availability)*	**PRODIGY** *(Sovereignty project)*
Department creation *(From 0 to fully autonomous)*	**4.8 M€ OPEX** *(Annual ops budget)*	**MTTR −25%** *(Process optimization)*	**DUE DILIGENCE** *(Africa audits & advisory)*
130+ interventions/yr *(24/7 crisis management)*	**22% ROI** *(Modernization: solar & energy)*	**PUE −15%** *(Green IT efficiency)*	**TIER III / IV** *(Standards & PCI DSS)*

RUN & BUILD EXPERT | CRITICAL INFRASTRUCTURE | OPERATIONAL EXCELLENCE
Ready for large-scale challenges, in France and internationally.

- Senior Data Center Manager with **17 years of expertise** in critical infrastructure (banking, telecom, hyperscale).
- Expert in **due diligence**, compliance (PCI DSS, Tier III) and cost optimization (**22% ROI** on modernization programs).
- Builder-leader: I have created and structured complete operations departments (**from 0 to 17 team members**, 24/7 model) and led complex transformation strategies.

PROFESSIONAL EXPERIENCE

HALDCI | **Founder & Senior Data Center Consultant** | France · hybrid | Dec 2025 – Present

- **Critical infrastructure advisory (Tier III/IV):** supporting technical leadership (CTOs) across RUN & BUILD cycles; target markets France and Africa.
- **CAPEX/OPEX strategy:** audits, due diligence and financial engineering for decision-makers (CTO/CFO); designed the "DC Sizing & Capacity Planning" application.

STELLARIX *(AXIAN TELECOM)* | **Senior Data Center Manager** | Antananarivo, Madagascar | Nov 2022 – Nov 2025

Led operations (RUN) and construction projects (BUILD) for critical data center infrastructure; strategic support across Africa and the Indian Ocean (Madagascar, Senegal, Tanzania).

- **Leadership & team building:** created and structured a 17-FTE unit (Ops/Delivery) — proactive sourcing, upskilling and roll-out of the 24/7 operating model.
- **CAPEX/OPEX governance:** managed 12 M€ CAPEX, including 8 M€ for a BUILD project, and a 4.8 M€ annual OPEX budget.
- **Operational performance (RUN):** 130+ critical interventions per year, 99.9% uptime sustained and MTTR reduced by 25% through escalation optimization.
- **Build & Green IT:** solar power deployment and cooling optimization (BMS, aisle containment) — PUE reduced by 15%, 22% ROI on modernization programs.
- **PRODIGY government program** (national identity, sovereign infrastructure): led and delivered the technical response — compliance upgrade of the MNDPT site and technical studies for the colocation offer in STELLARIX facilities.
- **Due diligence & compliance:** infrastructure audits and Tier III and PCI DSS compliance upgrades (hyperscale accounts) across Africa and the Indian Ocean.
- **Consulting & colocation:** space and capacity planning for colocation customers; technical management of key accounts and AWS colocation workshops.

SOCIÉTÉ GÉNÉRALE — *CS NOVIDYS consultant* | **Senior Data Center Architect (Space & Capacity Planning)** | Paris, France | Jan 2019 – Oct 2022

Full-time assignment: space planning, architecture and migration strategy for the group's high-criticality data centers (Tier III/IV).

- **Critical migration:** relocated 10,000 assets (Retail & Corporate) with zero client impact (zero downtime).
- **Architecture & capacity planning:** deployed Cisco ACI infrastructure; defined and managed the 5-year capacity plan to ensure scalability.

BANQUE DE FRANCE — *CS NOVIDYS consultant* | **Tier IV Data Center Architect (Space & Capacity Planning)** | Paris, France | Jun 2015 – Jan 2019

Full-time assignment: business continuity and management of very-high-security environments.

- **High availability:** technical commissioning of 2 Tier IV certified sites (Fault Tolerant).
- **Business continuity:** led the secure relocation of 1,500 pieces of critical equipment.
- **DCIM:** administration of the Nlyte, imVision and Power IQ capacity tools.

SFR | **Data Center Project Manager** | Paris, France | Jul 2012 – Jun 2015

- **Multi-site deployment:** led compliance upgrades of 129 NRO sites (FTTH optical nodes) nationwide; coordinated design offices and all-trades contractors (deadlines, budgets).
- **Energy efficiency:** PUE optimization across 30 major sites.

ORANGE — *via CLIMELEC & ICE, work-study (ESME Sudria)* | **OPC TCE Project Manager (Construction Coordination – All Trades)** | Paris, France | Oct 2009 – Oct 2012

- **BUILD management:** electrical and structured cabling (VDI) upgrade projects in data center environments — 900 K€ budget managed (Paris and Marseille).
- **Projects:** chilled-water production and network, supervision room cooling, hosting space fit-out, CSG overhaul, 2G/3G access network swap (Ericsson), LAN migrations and extensions, fiber rerouting.

GrDF — *work-study (BTS, CFI)* | **Cathodic Protection Technician** | Champigny-sur-Marne, France | Jul 2007 – Jun 2009

- Solar-powered cathodic protection, galvanic anode replacement (eastern Île-de-France) and gas network monitoring.

MY MANAGEMENT PHILOSOPHY: ***"You don't manage a data center; you manage the teams that keep it running."***

My approach rests on three pillars: **Rigor** (written procedures), **Care** (right to disconnect after on-call duty) and **Knowledge Transfer** (growing juniors into experts).

CERTIFICATIONS & EXPERTISE

Certifications:

- Uptime Institute **AOS** – Accredited Operations Specialist (June 2021, cert. no. 1623)
- **ITIL v3** Foundation (CERTyou)
- **PRINCE2** Foundation (CERTyou)
- Electrical Safety Authorization & Working at Height

Technical skills:

- **Design:** space planning, electrical architecture, structured cabling & networking (Cisco ACI), capacity planning.
- **Tools:** DCIM (Nlyte, Power IQ, imVision), CMMS, MS Project, AutoCAD.
- **Standards:** ISO 27001, PCI DSS, Tier III/IV.
- **Management:** due diligence, technical specifications & tender management (RFP), leadership, on-call management.
- **Languages:** French (native), English (intermediate – operational in technical English).

Soft skills: Leadership & mentoring · Proactive technical sourcing · Crisis management · Vendor negotiation · Cross-cultural adaptability

---

EDUCATION

- **2009 – 2012: Master's degree – Network & Telecom Engineering** (Bac+5, Master's level), Business Manager specialization | ESME Sudria, Paris — work-study
- **2007 – 2009: BTS – Fluids, Energy & Environment** (2-year higher technical diploma), Maintenance & Systems Management option | LÉA-CFI (formerly CFI) — work-study

---

INTERESTS & ENGAGEMENT

- **Endurance sports / motorcycle road trips:** *discipline and management of sustained effort in demanding environments — a resilience that carries over directly to mission-critical availability (24/7) and stress management in data center environments.*
- **Tech mentoring:** volunteer mentoring of young engineers; active commitment to skills transfer and to developing the next generation of IT talent.
- **Technology watch:** high-density infrastructure, with a particular focus on liquid cooling and AI-driven optimization of energy efficiency (PUE).
